

# Certified Medical Billing & Coding Specialist

222 Instructional Hours  
\$4000

Gain knowledge of the billing concepts needed to optimize reimbursement for a full range of healthcare services. Introductory coding concepts using HIPAA dictated code sets are addressed for a more complete understanding of the billing process. Additionally, students will learn MS Office programs, medical terminology and industry specific software. HIPAA Alerts, as it pertains to Medical Billing & Coding, are discussed throughout the track. Near completion, an exam review will be scheduled in preparation of challenging the National Healthcareer Association's certification exam for credentialing as a Billing & Coding Specialist to broaden job opportunities or career advancement.
